Washington Sees in New Move a Plan to Get Concessions on Land Armaments.

By David Lawrence. (Special Correspondent of The Eve-ning World-)

WASHINGTON, Dec. 18 (Copyright, 1921) .- France is the new mystery of the Arms Conference. Her sudden demand for a navy that shall eventually equal that of Japan has thrown the conference into a state of nervous irritation. Great Britain doesn't want any neighbor to have a navy as powerful as that Japan possesses. For what purpose would the French use such a navy?

If the French plan were approved. t would mean that both Great Britain and the United States would have in the Atlantic a-navy more formidable Boland as "envoy" and S. M. O'Mara than their respective fleets and that all thoughts of concentrating in the Pacific would have to be abandoned Britain would have to give more at tention also to the Mediterranean.

In a nutshell, the request of France for a larger navy, which some day would be even more efficient, so far as new ships is concerned, than the British or American fleets has started a wave of suspicion. Instead of thinking about the Pacific problems as future causes of conflicts, the British wonder if some of the many disputes which are arising over Near Eastern questions might precipitate a sea war Up to then, as far as the police know, in the Mediterranean.

The atmosphere of the conference the French policy is heard on every \$3,000 in Liberty Bonds and jewelry. The United States delegation had hardly recovered from its disapprogramme when the French inter- fused to name the other four, but

The first method would be for Germany to use the money held by German nationals abroad, amounting to about 7,000,000,000 gold marks.

The second method would be the use of the gold reserve in the German Reichsbank of more than 1,000,000,000 gold marks.

The third method would be for Germany to buy foreign exchange with her paper marks, which method, in the view of experts, would be even more disastrous than the second method suggested.

The Allied experts declare Germany herself is responsible for the situation, as the German Government had asked her about it and made public failed to make any serious attempt
